What could be better than a strip steak or a filet mignon?? How about if you could have them both at once separated and insulated by a bone to keep the meat juicy and add more flavor while cooking? Even better yet, what if it was Leon's "Premium CHOICE" a minimum of 21 days for maximum tenderness and on sale!

HISTORY OF CORNER BEEF & CABBAGE

Did you know that on St Patrick's Day, that there are few things better than corner beef with cabbage, carrots, onions, potatoes and spices?

According to the US department of Agriculture, "Corner Beef and Cabbage" was a traditional dish served for Easter Sunday dinner in rural Ireland. There was no refrigeration at the time, so the beef was salted or brined during the winter to preserve it. It was then eaten after the long, meatless Lenten fast.

Since the advent of refrigeration, the trend in Ireland is to eat fresh meats. Today this peasant dish is more popular in the United States than in Ireland. Irish-Americans and lots of other people eat it on St. Patrick's Day, Ireland's principal feast day, as a nostalgic reminder of their Irish heritage.

This week at Leon's the principal ingredients are all on sale, as well as a delicious prepared version in our deli. So, if you haven't ever tried it, or if you already love it... enjoy! Happy St. Patrick's Day from the green topped grocery store!

DESERT PEPPER SALSA

Desert Pepper's flavors come from the sun swept fusion of the Southwest, the open air markets of Mexico, and their own kitchens. They look backwards into the culinary traditions of the border regions and forward to global new flavors and ideas. This is a multi-generational family run business... that's right, real people running a real company. Over 25 years now (and more than a few margaritas later)...they are still at it.

Ireland is made for cheese... or maybe cheese is made for Ireland. It's kind of hard to tell. The temperate, year-round weather and moisture-bearing southwesterly winds create a smorgasbord for cows who dine on rich, fertile grass in the rolling, green pastures that dominate the countryside.
