## DO YOU FONDUE?

Did you know that CHEESE FONDUE was invented out of necessity not luxury? In the remote and isolated mountain villages of the Swiss Alps people learned to rely on locally made food especially during winter, when fresh food became scarce.

The Swiss found that melting cheeses made stale bread more edible. Local wines and seasonings were added and soon even the dry and hard bread tasted delicious after it was swirled in the creamy melted cheese.

Today many varieties of cheese fondue exist, each with a unique name and different blend of cheeses, wine and seasonings usually depending on where it they are made. The term 'Tondue' actually comes from the French word 'Tondre' which means to melt.

This year the FOODIES at Leon's invite you to melt on of our hand selected Imported Tradition d'Alps Fondue and use Lincoln's own local LeQuartier bread to dip into it as you ring in 2025!

# Foodie Favs

## BACHAN'S

### JAPANESE BARBECUE SAUCE

Bachan's was founded by Justin Gill, a Japanese-American who grew up eating and gifting friends his family's homemade sauce. It became so popular among those that tried it that he decided to launch a business with it. As it's a family recipe, Gill named the brand after his bachan, or his grandmother. The real reason you should buy Bachan's, though, is because this sauce tastes good on literally all food! It has the sweet rich flavor of teriyaki with the body of a BBQ sauce or glaze so it makes a killer stir-fry sauce, but it also elevates any vegetable (I especially love it on roasted broccoli). It is also a bowl-licking-good glaze on salmon.

## FEE BROTHERS FINE BITTERS

Fee Brothers makes fine bitters and has been familyowned since their founding in 1864. The FOODIES at Leon's have recently updated their mixer section to include over 12 varieties of these bitters for you to choose from. The effect of bitters in a drink is to balance, round out and make it more complex. Your mouth has taste receptors for sour, sweet, and salty; AND it has a receptor for bitter. The more receptors triggered as a drink tickles on the way down, the more interesting the drink!
