At Leon's we age our all our beef for a minimum of 21 days, allowing the meat to get more tender and flavorful. That is a difference that you can taste!

FRESH SQUEEZED ORANGE JUICE

Did you know that not all FRESH SQUEEZED ORANGE JUICE is created the same? The FOODIES at Leon's know it! The combination of the most advanced technology, and carefully chosen fruit, makes each drop of orange juice squeezed at Leon's an experience for the palate.

First off, our juicer cuts the orange in half and squeezes it without the peel ever coming in contact with the juice. It is this process that creates a sweeter perfect tasting juice, free of essential oils. There are also two pulp filters on our juicer that allow you to enjoy your glass of juice without having to worry about the separated pulp at the bottom.

The technology doesn't stop there though! Our juicer is one of the first generation of commercial juicers with antibacterial technology that inhibits the growth of bacteria, ensuring extra effective and long-lasting protection.

Then the FOODIES at Leon's come in. We care about which oranges we use and our produce team chooses the best tasting orange for each season to ensure there is never a drop in the quality and consistency or our juice. Using the right orange at the right time of year can drastically change how your juice tastes so we make sure that we are always using the best variety at the right time. That is why some days being average just isn't good enough, that's when you come to
